Frequently Asked Questions

Does insurance cover surgery?

Is EMI available?

Can I pay by UPI?

What is included in surgery cost?

Are follow-ups included?

Pricing Response Rules

When asked

LASIK कितने का है?

Always respond in this sequence:

1. Mention the price range.
2. Briefly explain why the cost varies (technology, eye condition, doctor's recommendation).
3. Offer to book a consultation.

Example:

"LASIK की कीमत लगभग ₹XX से ₹XX तक रहती है। Final cost आपकी eye evaluation और doctor की recommendation पर depend करती है. अगर चाहें तो मैं आपकी consultation book कर सकता हूँ."

Recommendation

In addition to these four documents, maintain three master reference sheets (not exposed to the AI as conversational documents):

1. **Doctors Master Sheet** – all doctors with specialties, schedules, and branch mappings.
2. **Branch Master Sheet** – all locations, facilities, timings, and services.
3. **Pricing Master Sheet** – all consultation fees, surgery prices, package inclusions, insurance partners, EMI options, and offers.

This separation makes updates easy (for example, a doctor's schedule or pricing change) without modifying the narrative knowledge documents.
